

Dr. Arabinda Haldar

Designation: Assistant Professor

Address: Indian Institute of Technology Hyderabad, India

**Brief Introduction:**

Dr. Haldar has obtained his PhD degree from IIT Bombay (Mumbai, India) in 2011 on the topic of magnetic alloys. He subsequently worked as a Post-doc at Colorado State University (Fort Collins, USA), as a Scientist-C at S. N. Bose National Centre (Kolkata, India) and as Post-doc at National University of Singapore (Singapore) before joining IIT Hyderabad (India). His research interests include spin wave based spintronics, Brillouin light scattering spectroscopy and nanofabrication. He has co-authored 28 papers in internationally reputed journals, 2 patents and 2 book chapters. He has been awarded Ramanujan Fellowship in the year of 2016.
